Display of these pipelines was failing due to runtime_constraints->min_nodes being a string for one the components and the runtime computation was expecting an integer. Converting the string to integer resolved it (in my manual testing).

For pipeline_instances/qr1hi-d1hrv-exbk1r9yrio2t1u :

#9 - 12/07/2016 03:21 PM - Lucas Di Pentima

Ran the apps/workbench tests locally without issues.

Is it worth to write a test case for this bug?

How about other similar cases? Is it possible that other numeric runtime constraints for old pipeline instances are saved as text?

Is it worth to write a test case for this bug?

I don't think it is needed

How about other similar cases? Is it possible that other numeric runtime constraints for old pipeline instances are saved as text?

Did a grep and found no other such runtime constraints.

Thanks.
