

Arvados - Bug #10514

[crunch-job] use docker instead of docker.io

11/10/2016 10:22 PM - Nico César

Status:	New	Start date:	11/10/2016
Priority:	Normal	Due date:	
Assigned To:		% Done:	0%
Category:		Estimated time:	0.00 hour
Target version:	Arvados Future Sprints		

Description

after 1.9.1 default should be "docker" not "docker.io" for sdk/cli/bin/crunch-run, my proposed patch is:

```
diff -ua crunch-job crunch-job.new
--- crunch-job 2016-10-25 10:39:23.284301732 -0400
+++ crunch-job.new 2016-11-10 17:20:45.050062341 -0500
@@ -127,7 +127,7 @@
 my $no_clear_tmp;
 my $resume_stash;
 my $cgroup_root = "/sys/fs/cgroup";
-my $docker_bin = "docker.io";
+my $docker_bin = "docker";
 my $docker_run_args = "";
 GetOptions('force-unlock' => \$force_unlock,
           'git-dir=s' => \$git_dir,
```

in systems where both binaries are available (legacy installations remain with the old docker.io) but the system is a modern one, it should take docker as the default one.

History

#1 - 08/29/2017 02:13 PM - Tom Morris

- Target version set to Arvados Future Sprints

#2 - 09/19/2018 03:34 PM - Peter Amstutz

- Subject changed from [crunch-run] use docker instead of docker.io to [crunch-job] use docker instead of docker.io
