Description

There are still quite a few places where workbench says 'Pipeline', even when running in a CrunchV2 only scenario.

For example:

Dashboard:
"Recent pipelines and processes"
"Run a pipeline"

(also, in the documentation at http://doc.arvados.org/user/cwl/cwl-runner.html, we have a reference to that "run a pipeline" button)

Workflow selection screen:
"Choose a pipeline or workflow to run:"

Project page:
"Pipelines and processes" tab
"Run a pipeline"

Etc. All of these should be cleaned up to be made consistent.

- Those listed code updates are addressed in #10524

- Pictures in the following pages in user guide need to be updated:
  - Accessing Arvados Workbench
  - Running a pipeline using Workbench
  - Using Common Workflow Language
  - Uploading Data (Nice to have - tab titles are out of date even with Crunch1)

#6 - 11/23/2016 08:19 PM - Tom Morris

- Target version changed from Arvados Future Sprints to 2016-12-14 sprint

#7 - 11/29/2016 02:25 AM - Radhika Chippada

Also, noticed an issue while using full-text search in 9tee4 environment. The search box shows any matching pipeline instances etc and when one of them is selected and Show button is clicked, an error is displayed that "Show" method is not supported for the object.

We need to update the API server groups_controller -> contents method to omit types that are disabled.
