

Arvados - Story #11159

[GA4GH] Import from tool registry API

02/24/2017 04:02 PM - Peter Amstutz

Status:	New	Start date:	
Priority:	Normal	Due date:	
Assigned To:		% Done:	0%
Category:		Estimated time:	0.00 hour
Target version:			
Description			
Support import of tools from tool registry API.			
https://github.com/ga4gh/tool-registry-schemas			
Initial capability: add support using arvados-cwl-runner at the command line to fetch a CWL file from GA4GH tool API over HTTP and import it to Arvados with existing --create-workflow feature.			
Could use the resolve_ga4gh_tool function from this branch:			
https://github.com/common-workflow-language/cwltool/commit/1efcfc77a640fe15906fd724ba498c439be98d37
