

Arvados - Bug #11405

[arv-put] Lumpy / slow upload

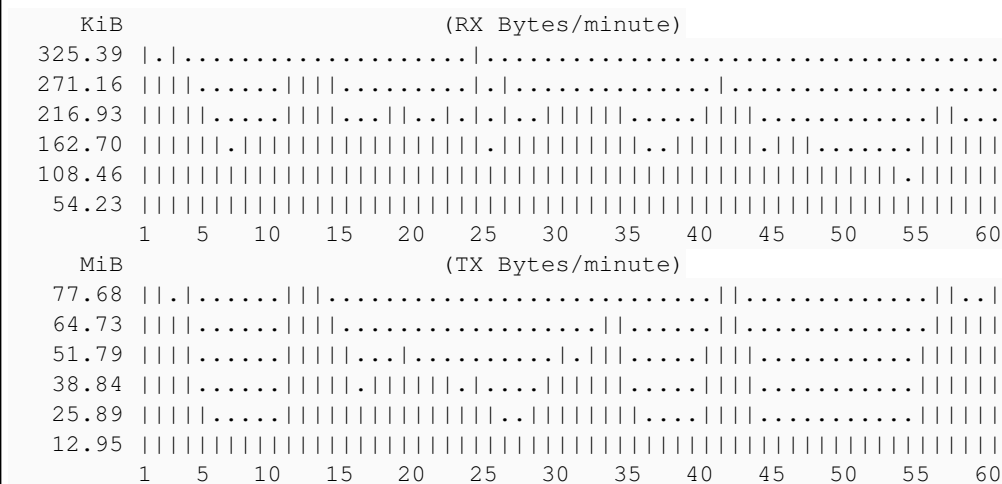

04/03/2017 06:42 AM - Tom Morris

Status:	New	Start date:	04/03/2017
Priority:	Normal	Due date:	
Assigned To:		% Done:	0%
Category:		Estimated time:	0.00 hour
Target version:			

Description

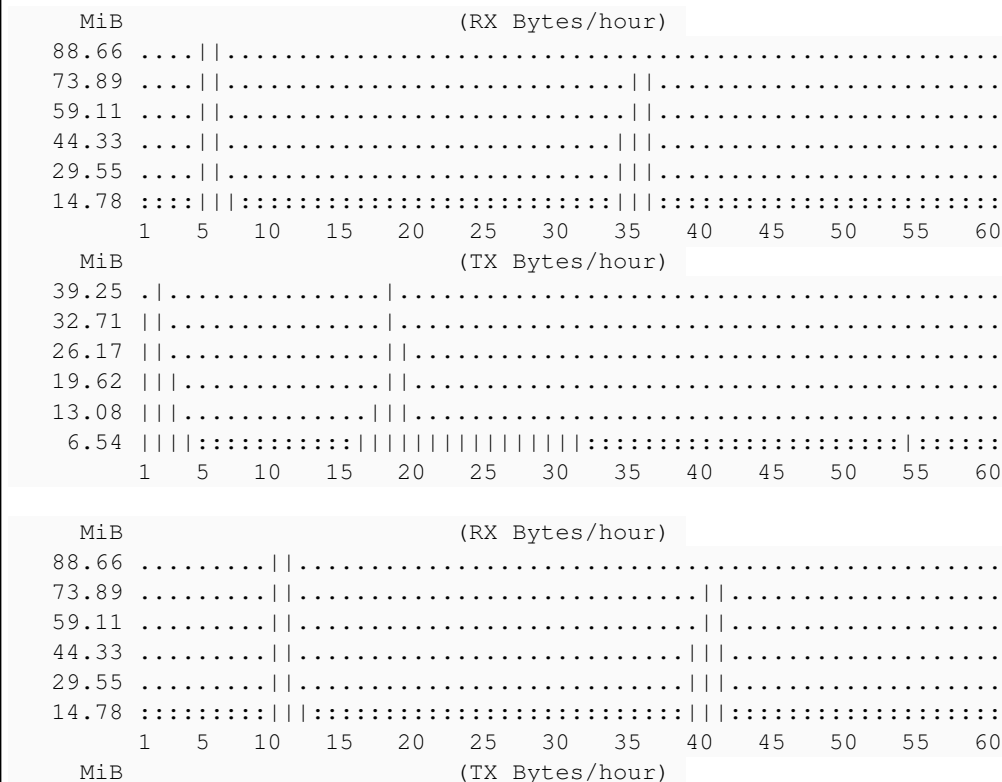

I'm not 100% sure that this is a bug, but it seems weird, so wanted to capture the data.

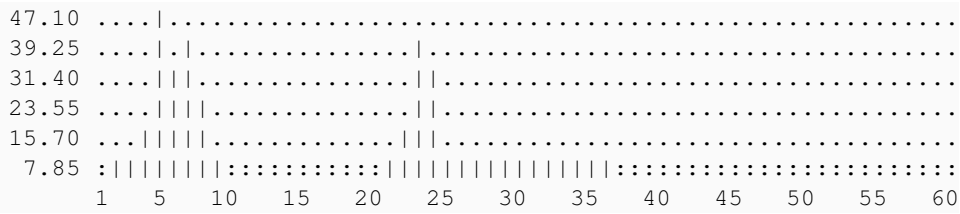

The last hour of the upload looks like this:

Although there are minute average peaks in the 70-80 MB/s range, there are also valleys of several minutes in the 10-20 MB/s range.

The hour averages look like this:

Note that the blobxfer downloads are 80-90 MB/s while the arv-put uploads are 20-30 MB/s in the hourly averages.

It's totally possible that there are environmental factors contributing to this
