

## Arvados - Bug #11593

### [API] [Workbench] config option `serve_static_assets` to `serve_static_files`

05/01/2017 01:30 PM - Nico César

<b>Status:</b>	New	<b>Start date:</b>	05/01/2017
<b>Priority:</b>	Normal	<b>Due date:</b>	
<b>Assigned To:</b>		<b>% Done:</b>	0%
<b>Category:</b>		<b>Estimated time:</b>	0.00 hour
<b>Target version:</b>	Arvados Future Sprints		
<b>Description</b>			
After <a href="#">#7709</a> we start having a deprecation warning:			
<pre>DEPRECATION WARNING: The configuration option `config.serve_static_assets` has been renamed to `config.serve_static_files` to clarify its role (it merely enables serving everything in the `public` folder and is unrelated to the asset pipeline). The `serve_static_assets` alias will be removed in Rails 5.0. Please migrate your configuration files accordingly. (called from block in &lt;top (required)&gt; at /var/www/arvados-api/current/config/environments/production.rb:12)</pre>			
we should replace to <code>serve_static_files</code> , update our tests and documentation to reflect this.
