

Arvados - Feature #11605

arv-put detects symlinks to common files and directories to avoid duplicated uploads

05/02/2017 01:55 PM - Lucas Di Pentima

Status:	New	Start date:	05/02/2017
Priority:	Normal	Due date:	
Assigned To:		% Done:	0%
Category:		Estimated time:	0.00 hour
Target version:	Arvados Future Sprints		

Description

When uploading a set of files, if some subdirectories or files are referenced more than once by using symbolic links, the current behavior is to upload them every time like if they're different files.

As described by Peter (<https://dev.arvados.org/issues/11579#note-5>), arv-put should notice this and instead of re-upload the same set of files, it should just copy the data from within the collection, saving bandwidth and time.
