[Crunch2] Create workflow object for CWL runs which are initiated from the command line

05/23/2017 06:47 PM - Tom Morris

Status:	New	Start date:	
Priority:	Normal	Due date:	
Assigned To:		% Done:	0%
Category:		Estimated time:	0.00 hour
Target version:			
Description			
When submitting a workflow on the command line, CWL runner should create a corresponding Workflow record for the job if it doesn't exist. This facilitates re-running from workbench.			
Add a column with the hash of the "definition" field so it is possible to efficiently determine if identical workflow record already exists.
