[Go] CLI programs should exit 0 after giving -help

06/16/2017 05:13 PM - Tom Clegg

Status:	New	Start date:	06/16/2017
Priority:	Normal	Due date:	
Assigned To:		% Done:	0%
Category:		Estimated time:	0.00 hour
Target version:			
Description			
Currently "prog -help" relies on the "print usage and exit non-zero if given flag is undefined" behavior in the stdlib "flag" package.			
To fix this, we can set ErrorHandling to ContinueOnError, and check the return value of Parse():			
<ul style="list-style-type: none">• if flag.ErrHelp, os.Exit(0)• if other non-nil error, os.Exit(2)
