

## Arvados - Bug #12546

### [crunchstat-summary] should obey --skip-child-jobs when working on a container

11/02/2017 07:04 PM - Tom Clegg

<b>Status:</b>	Resolved	<b>Start date:</b>	11/02/2017
<b>Priority:</b>	Normal	<b>Due date:</b>	
<b>Assigned To:</b>	Tom Clegg	<b>% Done:</b>	100%
<b>Category:</b>	Crunch	<b>Estimated time:</b>	0.00 hour
<b>Target version:</b>	2017-11-08 Sprint		
<b>Description</b>			
Currently there is no way to get a summary for a single container without following its child containers.			
I want to generate graphs for an arvados-cwl-runner container that has hundreds of children. I can generate graphs for the whole container tree, but the resulting html file crashes my browser.

- Target version set to 2017-11-08 Sprint

##### #3 - 11/02/2017 07:48 PM - Tom Morris

LGTM

I'm not thrilled that the usage message if you give it a bad switch only includes --job and not --container-request, etc, but I don't see an easy (or any) way to fix it (and it's totally unrelated to this ticket).
