

Arvados - Bug #12558

[Workbench] Bad dashboard time formatting - 60m == 1h

11/06/2017 06:21 PM - Tom Morris

Status:	New	Start date:	11/06/2017
Priority:	Normal	Due date:	
Assigned To:		% Done:	0%
Category:		Estimated time:	0.00 hour
Target version:			
Description			
I saw this on the workbench dashboard:			
Started at 9:17 AM 11/6/2017. Active for 3h60m.			
It should instead be formatted as 4h.

#2 - 03/27/2018 07:08 PM - Tom Clegg

in source:apps/workbench/app/helpers/pipeline_instances_helper.rb we do this after computing days/hours/minutes.

```
if round_to_min and seconds >= 30
  minutes += 1
end
```

Instead, before computing days/hours/minutes, we could do

```
if round_to_min && duration >= 30
  duration += 30
end
```

(Without the ≥ 30 test, adding 30 would cause $\text{duration}==10$ to be reported as "40s" when `round_to_min` is true.)
