

Arvados - Bug #13168

[API] state/priority-change triggers should not change container request modified_by_user_uid to root

03/01/2018 10:13 PM - Tom Clegg

Status:	Resolved	Start date:	03/29/2018
Priority:	Normal	Due date:	
Assigned To:	Lucas Di Pentima	% Done:	100%
Category:		Estimated time:	0.00 hour
Target version:	2018-04-11 Sprint		
Description			
For example, when a container finishes, each container request with a matching container_uid gets finalized (log, output, and state are updated). Currently, the finalizing mechanism inadvertently updates the container request's "modified by user" attribute to root. It should be left alone.

Updates at [378eeb13b](#) - branch 13168-cr-modified-user
Test run: <https://ci.curoverse.com/job/developer-run-tests/672/>

#8 - 03/30/2018 06:16 PM - Peter Amstutz

I did a test running a container, the container request modified_at had the right user after it finished, so this looks LGTM.

#9 - 03/30/2018 07:36 PM - Lucas Di Pentima

- Status changed from In Progress to Resolved
