**History**

**#1 - 06/28/2018 10:31 AM - Daniel Kos**

- Status changed from New to In Progress

**#2 - 06/28/2018 10:36 AM - Daniel Kos**

- Status changed from In Progress to New

As a user I would like to create a project  
so that new project was created and displayed in the system (tree and table)

Acceptance criteria:

- I created a project in my current location by clicking create project button
- I created a project in my current location by using tree context menu
- name of project is validated

User flow:

- 1a. Click on "New Project" button.
  - 1b. Right click on folder inside tree context menu and then choose "New Project"
  - 1c. Right click on folder inside the table and then choose "New Project"
  - 1d. Click on "More options" icon in the table and then choose "New Project"
2. Modal appears, where user has to defined:
    - project name
    - description (optional)
  3. Click on "Create a Project" button.
  - 4a. Project has been created. (Snackbar appear in the bottom of the page with the information that "Project has been created")
  - 4b. In case of empty mandatory fields, error appears below the inputs with information that "This field is required".
