Arvados - Feature #14201

[API] Accept "exclude_home_project" flag in groups#contents

09/12/2018 05:01 PM - Tom Clegg

Status:	Resolved		**Start date:**	10/01/2018
Priority:	Normal		**Due date:**	
Assigned To:	Peter Amstutz		**% Done:**	100%
Category:	API		**Estimated time:**	0.00 hour
Target version:	2018-10-03 Sprint			

Description

If a truthy exclude_home_project query parameter is given,

- include only items that are not otherwise reachable by the current user via project tree -- i.e., items whose parents are not visible to the current user, or are users other than the current user, or are non-project groups (see #13146)
- return a "bad request" error if parent/owner uuid is also given

Subtasks:

Task # 14238: Review 14201-exclude-home-project	**Resolved**

#11 - 10/01/2018 07:14 PM - Lucas Di Pentima

A couple of comments:

- On file services/api/app/controllers/arvados/v1/groups_controller.rb, lines 115, 266: In case owners var contain lots of repeated uuids, would it be convenient to get the de-duplicated version before passing it to que query? (I'm not sure if Active Record already does this)
- Should exclude_home() be a protected method?
- Fuse tests seem to have halted on test_safer_realpath, don't know if it's related to this update.

#12 - 10/01/2018 08:16 PM - Peter Amstutz

Now converts to Set() (which will deduplicate entries) and then back to Array.

> - Should exclude_home() be a protected method?

Fixed.

> - Fuse tests seem to have halted on test_safer_realpath, don't know if it's related to this update.

Seems unlikely but anything is possible, let's see what happens on the next run.
