

Arvados Workbench 2 - Bug #14421

[Bug][Main Container][Functionality] "Last modified" filtering does not work properly

10/30/2018 11:17 AM - Michal Komorowski

Status:	Resolved	Start date:	
Priority:	Normal	Due date:	
Assigned To:	Pawel Kromplewski	% Done:	0%
Category:		Estimated time:	0.00 hour
Target version:	sprint 12		
Description			
It was observed that when the user tries to sort any items by using "Last Modified" option, the functionality does not fully work as intended. When engaged for the first time, the result are updated correctly (descending), but every engage after that does not trigger any change to the results.			
Please refer to the attached video.			
<ol style="list-style-type: none">1. Enter a folder containing at least a couple of items modified at different dates2. Update the items using "Last Modified" option3. Click on the filter button again			
Observed result: The results are not updated properly.			
Expected result: Continuous pressing of the filter button should change the filter method between ascending/descending options.
