Arvados Workbench 2 - Bug #14732
Build failed in Jenkins - new configuration

01/15/2019 09:32 AM - Pawel Kowalczyk

Status: New
Priority: Normal
Assigned To: Pawel Kowalczyk
Category: Jenkins
Target version: 

Description
Got info: 'Config changed since last build',
ERROR: Invalid value for parameter [build_version]

History
#1 - 01/15/2019 01:50 PM - Fernando Monserrat
Hi Pawel, I have removed this config at the moment and will re visit it later, but yes it introduced an error in the regular build as the parameter comes empty. it is working now https://ci.curoverse.com/job/build-packages-workbench2/400/console
