Updates at commit bbd6e18 - branch 15012-all-processes-page (wb2 repo)

- Added /all\_processes page, accessible via the left panel
- Filtering by Status and Type
- Shows main processes by default
- Orderable by name & created\_at
- Searchable by name

**#16 - 01/21/2020 08:55 PM - Peter Amstutz**

reviewing 15012-all-processes-page @ [bbd6e1809d764ca269793424d3084bdb93311828](https://github.com/containers/podman/pull/1828/commits/bbd6e1809d764ca269793424d3084bdb93311828)

Over all, this looks great! I'm very happy we'll be able to get this feature into 1.5

src/websocket/websocket.ts should auto-refresh the all processes page if it is currently displayed.

There's a note

```
// TODO: When 15019 is merged, this won't be necessary
```

15019 should be merged, so it isn't necessary?

Column heading says "Started at" but it actually sorts by "created at"

Could we add a ContainerRunTime column?

Updates at commit a3d36c33:

- Adds Run Time column on all\_processes page.
- Shows & orders by "Created At" on all\_processes page.
- Shows correct context menu on all\_processes page.
- Clears subprocess panel before requesting new data to be displayed.
- Updates all\_processes page when websocket event received.
- Fixes process status rendering when priority=0 and state=Complete.
- Fixes process status filtering when requesting Queued processes.
