

Arvados - Story #15730

[Workbench 2] Implement UI for new group permission scheme

10/16/2019 05:41 PM - Tom Morris

Status:	New	Start date:	
Priority:	Normal	Due date:	
Assigned To:		% Done:	0%
Category:		Estimated time:	0.00 hour
Target version:			
Description			
Implementation notes			
<ul style="list-style-type: none">• Current group visualization on wb2 is using: Admin -> Groups -> Group/Advanced -> Metadata — all links are displayed in a somewhat raw format.• The project share dialog needs to be updated with the new permission types define on #15372.• Update the Groups Admin UI:<ul style="list-style-type: none">◦ The general listing should list only “role” groups◦ When clicking on any role group, display a list of member users with a button “+ Add Users”<ul style="list-style-type: none">▪ The dialog should be similar to the “share” dialog that features user autocomplete and permission type selection◦ On the general group list, the “+ New Group” button shows an enhanced dialog<ul style="list-style-type: none">▪ It should allow basic group information input and then enter the newly created group page so the admin can add members to it.• Users Admin UI<ul style="list-style-type: none">◦ Group membership information by user is now somewhat available by accesing the Advanced dialog and clicking on the Metadata tab◦ A proper group membership UI should be part of a user profile page
