

Arvados - Bug #15904

[API] remove application.yml and database.yml from arvados-api-server package

12/03/2019 10:39 PM - Peter Amstutz

Status:	Resolved	Start date:	12/30/2019
Priority:	Normal	Due date:	
Assigned To:	Ward Vandewege	% Done:	100%
Category:		Estimated time:	0.00 hour
Target version:	2020-01-02 Sprint		
Description			
The postinst.sh script creates legacy application.yml and database.yml files. Because these files override config.yml, this breaks the installation.			
It is likely that workbench1 has a similar problem.			
Subtasks:			
Task # 15908: review			Resolved

Associated revisions

Revision 9b0e5e59 - 12/04/2019 02:35 PM - Ward Vandewege

Stop adding application.yml and database.yml symlinks on fresh installs of the rails packages.
