Description

The Subprocess data table:

In the "Status filters" popup, clicking on the button works to change the filter. However moving the mouse cursor over the text of an item and clicking it changes the item background but doesn't change the filter. Also it seems unnecessary to select the filter and then separately choose Ok/Cancel, a single click should select the item and close the dialog.

After closing the "Status filters" popup, the "Filters" tooltip remains on the screen, partly obscuring the first row.

Subtasks:

Task # 15967: Review 15951-filter-ui-polish

Fixes at commit 88ab5c438e86bbed9efa29ef5ff653a511d3096b - branch 15951-filter-ui-polish

- Filter options (either checkboxes or radio buttons) are now selected when clicking anywhere on their row
- Filters that only allow 1 selected option don't present the ok/cancel buttons, and auto-submits on click.
- Tooltip doesn't keep on display after dismissing the filter popover dialog.
- Removed code that wasn't being used and adapted tests to work with the code that is actually being used.

I believe that there're some simplification opportunities on the Tree component but as it's something used on lots of places and the test suite isn't complete, I preferred to stop fiddling with the code at the moment.

A couple other details I noticed on the projects panel, hopefully easy to fix:
- The hamburger menu in the upper-right has a tooltip "filters" but should be something like "select columns"
- The "filters" tooltip has the same problem of remaining active after the user has closed the menu

Something I also thought of, that should probably go into another ticket:
- When you select which types of objects to show, it should hide the columns that don't make sense for any of the selected object types (e.g. if you are only looking processes, you don't need "file size").
- Should move the "types" column over to the left so the column content are the icons and there's no text.

Fixed at commit e3a0a85e.

A couple other details I noticed on the projects panel, hopefully easy to fix:
- The hamburger menu in the upper-right has a tooltip "filters" but should be something like "select columns"
- The "filters" tooltip has the same problem of remaining active after the user has closed the menu

- Should move the "types" column over to the left so the column content are the icons and there's no text.

I'll add these to the wb2 feedback pile. Thanks!
This LGTM, thanks!
