

Arvados Workbench 2 - Bug #16038

Custom Enum Type in the workflow breaks the Workflow runner Wizard

01/16/2020 01:33 PM - Moritz Gilsdorf

Status:	New	Start date:	
Priority:	Normal	Due date:	
Assigned To:		% Done:	0%
Category:	Workbench2	Estimated time:	0.00 hour
Target version:			
Description			
We have created a workflow based on this example: http://www.commonwl.org/user_guide/19-custom-types/			
Our workflow takes three inputs, a string, a file and a value from a custom enum. It seems that workbench2 is not supporting enum and having a enum or custom type even breaks the other inputs.
