

## Arvados - Bug #16072

### a-c-r default image should be same as self

01/22/2020 08:35 PM - Peter Amstutz

<b>Status:</b>	Resolved	<b>Start date:</b>	
<b>Priority:</b>	Normal	<b>Due date:</b>	
<b>Assigned To:</b>	Peter Amstutz	<b>% Done:</b>	100%
<b>Category:</b>		<b>Estimated time:</b>	0.00 hour
<b>Target version:</b>	2020-01-29 Sprint		
<b>Description</b>			
If no other image is specified, a-c-r fills in arvados/jobs:latest. This is confusing. It should use the same image tag it would use to run itself.			
For future consideration: the default docker image should be nothing (so it won't run) with a command line option to specify a default docker image.
