Arvados - Bug #16101
https://ce8i5.arvadosapi.com/users/sign_out path not found
01/30/2020 03:55 PM - Peter Amstutz

Status: Resolved
Priority: Normal
Assigned To: Tom Clegg
Category: Login
Target version: 2020-02-26 Sprint

Start date: 02/18/2020
Due date:
% Done: 100%
Estimated time: 0.00 hour

Description
When using Controller's native Google login, logging out results in an error.

Subtasks:
Task # 16149: Review 16101-logout

Resolved

Controller needs a Logout() method that bypasses railsProxy when Login.GoogleClientID is configured, similar to Login() in source/lib/controller/localdb/conn.go. The native implementation doesn't set cookies so I think this is a no-op, just redirecting to the return_to param value (or if none provided, workbench2?).

It looks like if `return_to` is unspecified you'll get a blank (invalid) redirect. The API server sends you to the API server root (`return_to = params[:return_to] || root_url`) but sending you to Workbench by default would probably be better.
