[tests] Jenkins isn't testing the python SDK on python3

Description			
Jenkins has a run-tests-sdk-python-ruby job that runs run-tests.sh ... --only sdk/python:py3 but this doesn't actually run any tests.			
run-tests.sh strips the :py3 before calling the do_test function that checks the \$only argument -- so --only sdk/python:py3 is equivalent to --only nothing.
