

Arvados Workbench 2 - Bug #16241

Object's description display & editing is inconsistent & lacks textile support

03/11/2020 08:15 PM - Lucas Di Pentima

Status: New	Start date:
Priority: Normal	Due date:
Assigned To:	% Done: 0%
Category: Workbench2	Estimated time: 0.00 hour
Target version:	
Description Descriptions on processes, projects & collections have different handling behaviors, they should be consistent. On projects, they're almost inaccessible, the way to see it is by going to the details panel and clicking on a link to get a modal window. Also they don't support textile formatting. Only the "edit project" dialog has a formatting editor, but it seems that it uses HTML. https://github.com/borgar/textile-js
