History

#1 - 06/17/2020 08:39 PM - Ward Vandewege

- Status changed from New to In Progress

Ready for review at 0d90de4cf2fe4846f0a4ca321e2704e93bdbf80c in branch 16522-python3-arvados-fuse. I've built and tested the packages locally, they all passed.

#2 - 06/18/2020 05:33 PM - Peter Amstutz

The install testing doesn't cover all the python3 packages:

arvados/build/package-testing
ln -s test-package-python27-python-arvados-fuse.sh test-package-python3-arvados-fuse.sh
ln -s test-package-python27-python-arvados-python-client.sh test-package-python3-arvados-python-client.sh

#3 - 06/19/2020 03:16 PM - Ward Vandewege

Hmm, I had the fuse one but forgot to commit it. So I did test that. I've pushed it now at 3e9830b79c4c43f428b032d33f071434cae454dd.

I can add the python client test for python3, though that's unrelated to this ticket. That one can't be a symlink because there's a python interpreter path in there. I suggest we do that separately from this branch. I will prepare a patch.

ln -s test-package-python27-python-arvados-fuse.sh test-package-python3-arvados-fuse.sh
ln -s test-package-python27-python-arvados-python-client.sh test-package-python3-arvados-python-client.sh

Hmm, I had the fuse one but forgot to commit it. So I did test that. I've pushed it now at 3e9830b79c4c43f428b032d33f071434cae454dd.

Great, LGTM.

I can add the python client test for python3, though that's unrelated to this ticket. That one can't be a symlink because there's a python interpreter path in there. I suggest we do that separately from this branch. I will prepare a patch.

Sounds good.

Sounds good.

That is now #16568

#7 - 06/26/2020 01:56 PM - Ward Vandewege
