

Arvados - Story #16552

arvados-server config wizard for single node install

06/18/2020 07:44 PM - Peter Amstutz

Status: New	Start date:
Priority: Normal	Due date:
Assigned To: Tom Clegg	% Done: 0%
Category:	Estimated time: 0.00 hour
Target version:	
Description User should be able to install an arvados metapackage and get all the packages. Next, user runs arvados-server config wizard as an interactive terminal program which generates a default configuration. This sets Services to point to self. Default configuration should work in the case where the user is on a machine with a publicly routable DNS. Automatically sets up Let's Encrypt.	
Subtasks: Task # 16607: Review New
