16856-acr-disable-color @ [arvados|68eb70370ccf2ec7879146f3980e05019d2b67a1](https://ci.arvados.org/view/Developer/job/developer-run-tests/2108/)

A few quality-of-life improvements to arvados-cwl-runner:

- Explicitly disable color logging for submitted containers, since workbench doesn't understand color codes.
- Move a message "Using empty collection" to debug level since it is entirely meaningless to regular users.
- Explicitly log the cluster a-c-r is submitting to.
- Tweak logging of container submit errors so they are displayed better in workbench.
