

Arvados - Bug #17436

Favorites in workflow picker dialog is different to favorite list

03/02/2021 02:57 PM - Peter Amstutz

Status:	Resolved	Start date:	03/03/2021
Priority:	Normal	Due date:	
Assigned To:	Daniel Kutyla	% Done:	100%
Category:	Workbench2	Estimated time:	0.00 hour
Target version:	2021-04-14 sprint		
Description			
"I tested especially the favorites bug and for me it works in the copy dialog. However the same dialog used for the workflow input fields to select a project is still having the bug. I got a ticket again with this. Would that be an easy fix ?"

Branch: 17436-Favorites-in-workflow-picker-dialog-is-different-to-favorite-list

Added proper options to the tree picker, added tests

#6 - 03/03/2021 10:03 PM - Daniel Kutyla

- Assigned To set to Daniel Kutyla

#7 - 03/03/2021 10:26 PM - Lucas Di Pentima

- Can you explain to me what's the intention of the "checks that Public favorites does not appear under shared with me" test case? I know it's a test from other past branch, but it doesn't make sense to me the way it's written, following its name I think it should create a public favorite, and then click on the "shared with me" entry and confirm the just created favorite isn't there, but instead is just asserting that some string ("Public favorites") isn't there.
- I think that re-using createSharedProjects() code isn't convenient, because it takes a lot of time to simulate a user sharing something many times, specially on a "Favorites" test suite. Could you instead create a similar function that's available to all the test suites (on cypress/support/commands.js) that uses API calls instead of interacting with the UI? I can help you with this if needed.
- Also, the current createSharedProjects() code could be used on a new sharing.spec.js file to test just once the sharing dialog, what do you think?
- There's one test case with the .only() call that avoids the rest to run.

#8 - 03/08/2021 07:46 AM - Daniel Kutyla

New version first commit: <https://dev.arvados.org/projects/arvados-workbench-2/repository/revisions/335fee64075faf3dac519fba45da5ecbe5008f33>

Code cleanup

#9 - 03/08/2021 02:41 PM - Lucas Di Pentima

Some more testing related comments:

- I think the Cypress command createSharedProjects() is too specific to be in the commands.js file. It even has side effects that make its use difficult to follow (setting predefined global variables that need to be accessed later). Do you think it would be better to just make a createSharedProject() (singular) command that takes an optional name and just returns the created+shared project, leaving all the small details of how many, and to which global var will be assigned, to its caller?
- I think that testing the UI interaction for sharing is useful, but testing it many times doesn't have additional benefits and OTOH it adds test running time. The code that tested sharing interactions is now replaced with API calls completely, so now we aren't testing the sharing UI. I think it should be re-added to its own sharing.spec.js file or similar, do you agree?
- The cy.loginAs() calls at file cypress/integration/favorites.spec.js lines 49, 102 and 140 are not needed and add testing time.

#10 - 03/08/2021 10:40 PM - Daniel Kutyla

New version first commit: <https://dev.arvados.org/projects/arvados-workbench-2/repository/revisions/d2817690f88befb0c306e637d6e87367016c76e3>
 Test run: [developer-tests-workbench2: #309 icon?job=developer-tests-workbench2&build=309](#)
 Branch: 17436-Favorites-in-workflow-picker-dialog-is-different-to-favorite-list

Added generic code for project creation within cypress tests

#11 - 03/09/2021 02:05 PM - Lucas Di Pentima

This LGTM, thanks!

#12 - 03/09/2021 05:59 PM - Daniel Kutyla

- % Done changed from 0 to 100
