

Arvados Workbench 2 - Feature #17518

Workbench2 lets users auto-login and access dialogs through direct links

04/06/2021 05:13 PM - Lucas Di Pentima

Status: New	Start date:
Priority: Normal	Due date:
Assigned To:	% Done: 0%
Category: Workbench2	Estimated time: 0.00 hour
Target version:	
Description Currently WB2 allows users to auto-login via the /token?api_token=xxxxxxx URL, but in some cases there's a need to provide users with a direct link to a specific view and/or dialog (ie: wb1 needs to provide a direct access to wb2's "Get API token" dialog). Right now, dialogs don't have a proper URL, we may be able to make wb2 display those dialogs via query params or similar mechanism.	
Subtasks: Task # 17519: Update workbench1's link from the "Current token" dialog to take the user... New	
Related issues: Related to Arvados - Bug #16159: Expire or invalidate token when logging out ... Resolved 04/08/2021
