Updates at [arvados-workbench2|33502c3e](#) - branch 18028-all-procs-context-menu - [developer-tests-workbench2: #602 icon?job=developer-tests-workbench2&build=602](#)

- Removes duplicated code related to process context menus.

I haven't written any cypress test for this because I'm not sure how complex (and slow?) would be having a finished container. OTOH, we have comprehensive unit testing at `src/store/context-menu/context-menu-actions.test.ts` and all the additional change that I make is using those context menus on the "All processes" section too.
