

Arvados - Feature #2875

[Workbench] Editable description field for pipeline instances and templates

05/27/2014 01:42 PM - Ward Vandewege

| | | | |
|---|-------------------|------------------------|-----------------|
| Status: | Resolved | Start date: | 09/11/2014 |
| Priority: | Normal | Due date: | |
| Assigned To: | Radhika Chippada | % Done: | 100% |
| Category: | Workbench | Estimated time: | 0.00 hour |
| Target version: | 2014-09-17 sprint | | |
| Description | | | |
| Augment the existing editable "description" field on the "show project" page. | | | |
| <ul style="list-style-type: none">• Add a description attribute to the pipeline_instances and jobs models. (See Hacking API server)• Make an "editable name and description" partial so any object that has a description and name attributes automatically has the same editable name/description section at the top of the page as the current "show project" page.• Currently the instance#show page shows a misleading description taken from the pipeline template (see #3765). This will be less misleading if we:<ol style="list-style-type: none">1. Do not show the template's description at all on the instance page.2. Do not show the template's name in the same location/style we usually use for properties of the current object. (Perhaps a <div class="alert alert-info"> in the top right corner would be better?)3. Add a phrase after the template name/link saying "(note: template has been modified since this instance was created)" when that's true | | | |
| Also set an initial description field when creating a pipeline instance -- something like | | | |
| <pre>Created using "{template name}" pipeline template on {date/time}</pre> | | | |
| Ideally, arv-run-pipeline-instance should also set the description to something similar. (And accept a command line argument to override) | | | |
| Note: #3036 adds a description attribute to PipelineInstance and Job (and a name attribute to Job). If #3036 isn't merged when you get started on this, take the 20140815171049_add_name_description_columns.rb migration from the 3036-collection-uuids branch instead of making a conflicting one. | | | |
| Subtasks: | | | |

- Status changed from New to In Progress

#24 - 09/15/2014 09:44 PM - Tom Clegg

Noticed several suspicious lines like this in services/api/db/structure.sql (note the timestamp):

```
+INSERT INTO schema_migrations (version) VALUES ('20140509143351');  
+
```

(There is no such migration in the source tree, so surely this isn't right. Perhaps these rows in your schema_migrations table are left over from old migrations during development/review and need to be deleted?)

- Tom, thanks for noticing this and explaining it. I removed these junk lines from db/structure.sql and I also removed them from my schema_migrations table to prevent this from happening again. Thanks.

#25 - 09/16/2014 11:15 AM - Peter Amstutz

1. Collections page has name listed twice, description should go into the info panel like we discussed
2. Grammar fix: "This pipeline has been created from the template ..." -> "This pipeline was created from the template ..."

#26 - 09/16/2014 11:30 AM - Radhika Chippada

- Status changed from In Progress to Resolved

- % Done changed from 83 to 100
