

Arvados - Bug #3698

[Crunch] Pipeline runner should detect when "output_of" refers to a non-existent component, and fail instead of staying in RunningOnServer state forever.

08/26/2014 03:20 PM - Peter Amstutz

Status:	Resolved	Start date:	10/17/2014
Priority:	Normal	Due date:	
Assigned To:	Peter Amstutz	% Done:	100%
Category:	Crunch	Estimated time:	0.00 hour
Target version:	2014-12-10 sprint

This needs another look. This logic should've detected [qr1hi-d1hrv-i1d1jffl9nd5ylv](#), but apparently didn't—right now the pipeline is active and there's nothing in the log.

#10 - 11/14/2014 09:05 PM - Ward Vandewege

- Target version changed from *Arvados Future Sprints* to *2014-12-10 sprint*

#12 - 12/03/2014 08:56 PM - Peter Amstutz

API's Gemfile.lock arvados-cli (0.1.20141014201516) version pin predates the fix by three days, so the reason the problem appeared is that the api server is still using the old version of arv-run-pipeline-instance.
