Ward, you were probably referring to the repository: <https://workbench.qr1hi.arvadosapi.com/repositories/qr1hi-s0uqq-i0nso64q89yuh9i>

If you access the Advanced tab -> Metadata for this repository, you will notice that the tail\_uuid is pointing to a different user account for Bryan: <https://workbench.qr1hi.arvadosapi.com/users/qr1hi-tpzed-iygpm2vfljmx3u>

This is hence not accessible to the user you listed in the ticket.

Hence, please let me know if I mark this issue as "Rejected" with this explanation. Thanks.

Rejecting since it is not a bug.
