History

#1 - 11/14/2014 08:53 PM - Tom Clegg

- Subject changed from [Workbench] Search dialog infinite scrolling issue: second page and onwards do not filter out items and search filter is ignored. to [Workbench] Search dialog infinite scrolling issue: second page and onwards do not filter out items and search filter is ignored.
- Story points set to 0.5

#2 - 11/14/2014 08:56 PM - Tom Clegg

This is likely a duplicate of a bug noticed and fixed in [#4024](#).

#3 - 11/14/2014 08:56 PM - Tom Clegg

- Category set to Workbench

#4 - 11/14/2014 09:12 PM - Tom Clegg

- Status changed from New to In Progress

#5 - 12/11/2014 06:39 PM - Radhika Chippada

- Assigned To set to Radhika Chippada
- Target version changed from Bug Triage to 2015-01-07 sprint

#6 - 12/11/2014 09:08 PM - Radhika Chippada

Just one line change. I had much difficulty writing the test (to scroll within search box) and so i gave up.

I manually verified by creating >200 humans in my local api server and then searching for "-7a9it-"

It is not really easy / possible to test pointing to qr1hi because of still unresolved [#4523](#).

I did want to make it easy for the reviewer to test it by creating more than 200 objects in one of projects ([qr1hi-j7d0g-1jc55y5dxmhdibq](#)) named "Radhika Test folder with more than 200 objects", but identified yet another bug [#4804](#).

So, the only effective way to test the fix is by creating more than 200 objects of any type (humans in my case) and searching for the object type portion of the uuid.

#7 - 12/11/2014 09:54 PM - Radhika Chippada

Added fix for [#4804](#) in this branch.

To test the fix:

- Point workbench to qr1hi
- Click search icon in topnav
- Select "Radhika Test folder with more than 200 objects" project (uuid [qr1hi-j7d0g-1jc55y5dxmhdtdbq](#))
- Enter string "-4zz18-" in the search box
- You should see spinner when you scroll down and the scrolling is "finite" and you only see two or so pages worth of data.
