

## Arvados - Task #4900

Bug # 4523 (Resolved): [Workbench] Search dialog giving error when searching in "All projects" in qr1 hi

### Add a "file\_names" column for collections data model

01/05/2015 11:22 PM - Radhika Chippada

<b>Target version:</b>	2015-01-28 Sprint		

#### Description

Since searching "text" columns is too slow, we do not want to include text columns in searchable\_columns.

However, this would mean the collections search for file names will not be comprehensive enough without searching in "manifest\_text" column.

Hence we want to add a new column of type string with file names only, truncated to the allowed size.

What we need:

- Add a file\_names column to collections data model (of size 64K or so)
- Use this column when searching for "any" instead of manifest\_test column
- Remove text columns from searchable\_columns
