

Arvados - Task #4987

Feature # 5259 (New): [Tests] Reduce dependency on integration tests

Refactor Python tests to use fewer servers as able

01/15/2015 02:12 PM - Brett Smith

Status: Closed	Start date: 01/05/2015
Priority: Normal	Due date:
Assigned To:	% Done: 0%
Category:	Estimated time: 0.00 hour
Target version: Arvados Future Sprints	
Description Many of our Python tests were written there was a lot more global state—a single API client, a single Keep client, etc. Now that you can instantiate these directly, with more control over the process, it should be possible to adjust the tests to avoid the need for a server at all, by using fake data, mocks, etc.
