

Arvados - Task #4993

Feature # 5260 (New): [Tests] Implement long-running keepstore services in run-tests, similar to what api got in #3021

Implement test server service, and use it across test suites

Description			
Think of this as an independent, fuller-featured run_test_server.py: it knows how to bring up all the different servers we need for testing, and different test suites can call it to do just that.
