Description

We should replace existing public data from PGP2,3,5,7,8,10 on snp.med.harvard.edu and evidence.personalgenomes.org as follows:

PGP2:

- http://snp.med.harvard.edu/results/job/25/John_Halamka
- <http://snp.med.harvard.edu/results/job/172>

PGP3:

- http://snp.med.harvard.edu/results/job/26/Esther_Dyson
- <http://snp.med.harvard.edu/results/job/173>

PGP5:

- http://snp.med.harvard.edu/results/job/28/Kirk_Maxey
- <http://snp.med.harvard.edu/results/job/175>

PGP7:

- http://snp.med.harvard.edu/results/job/30/Keith_Batchelder
- <http://snp.med.harvard.edu/results/job/176>

PGP8:

- http://snp.med.harvard.edu/results/job/31/Stanley_Lapidus
- <http://snp.med.harvard.edu/results/job/177>

PGP10:

- http://snp.med.harvard.edu/results/job/33/James_Sherley
- <http://snp.med.harvard.edu/results/job/179>

It would be helpful to do concordance to demonstrate there has been no sample mix-up.

Thanks,
Sasha et al.

History

#1 - 05/20/2010 01:49 PM - Madeleine Ball

Tom finished most of this aside from some possible import problems and concordance. Lowering priority to major.

#2 - 02/15/2011 03:17 PM - Ward Vandewege

- Project changed from External to GET-Evidence

- Category deleted (GET-Evidence)

#3 - 02/16/2011 02:55 PM - Madeleine Ball

- Priority changed from High to Normal
