

Arvados - Bug #5076

[Workbench] Replace schizophrenic generic "groups" page with "roles" page that only creates/lists groups with group_class="role".

01/23/2015 09:23 PM - Radhika Chippada

Status:	New	Start date:	
Priority:	Normal	Due date:

Category:		Estimated time:	0.00 hour
Target version:			
Description			
This is happening because the /groups page is filtering out non-project (?) group class. However, the newly created group has no group_class set.			
We need to (1) either not filter things or (2) a better groups page with UI to manage roles.			

History

#6 - 05/02/2017 06:31 PM - Peter Amstutz

- Story points deleted (0.5)

#7 - 05/02/2017 06:46 PM - Tom Clegg

Estimates:

- 0.5 points for a "roles" page that only lists groups with group_class="role", and has a "create new role" button that creates a group with group_class="role"
- 2.0 points for a "roles" page that also lists who is in each role, and lets you add/remove users from a role -- either on the same "roles" page, or by clicking through to a "view/edit role" page.
