Category:	Tests	Estimated time:	0.00 hour
Target version:	Arvados Future Sprints		
Description			
Background:			
run_test_servers.py --keep-enforce-permissions enables Keep permission signatures, but (for example) keepproxy integration tests don't use this, so they aren't representative of normal usage.			
Improvements:			
<ul style="list-style-type: none">• Enable permission signatures in at least one (perhaps all) keepproxy tests.• Enable permission signatures in at least one keepstore "process pull list" test.
