

Arvados - Feature #5646

[Workbench] Display duration on pipeline instance listings

04/02/2015 06:34 PM - Nancy Ouyang

Status:	New	Start date:	04/02/2015
Priority:	Normal	Due date:	
Assigned To:		% Done:	0%
Category:	Workbench	Estimated time:	0.00 hour
Target version:	Arvados Future Sprints		

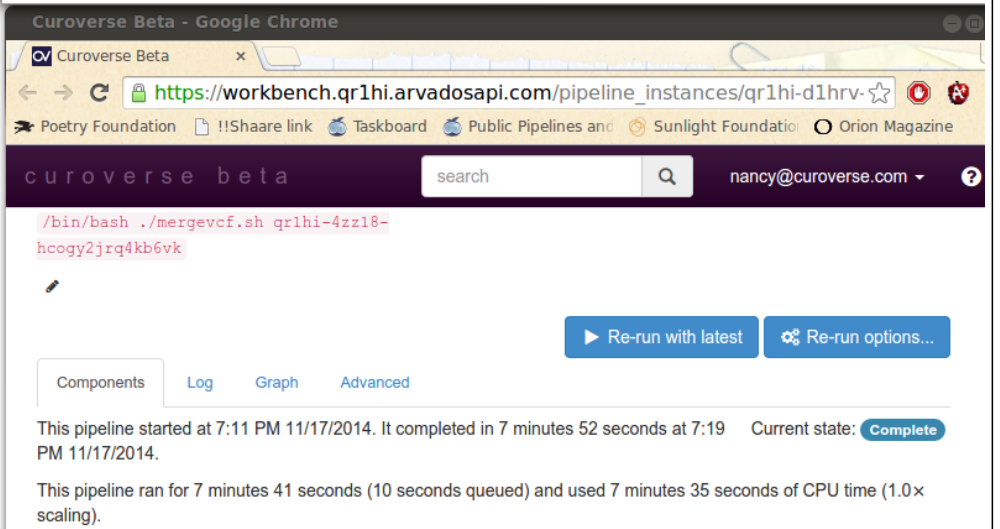

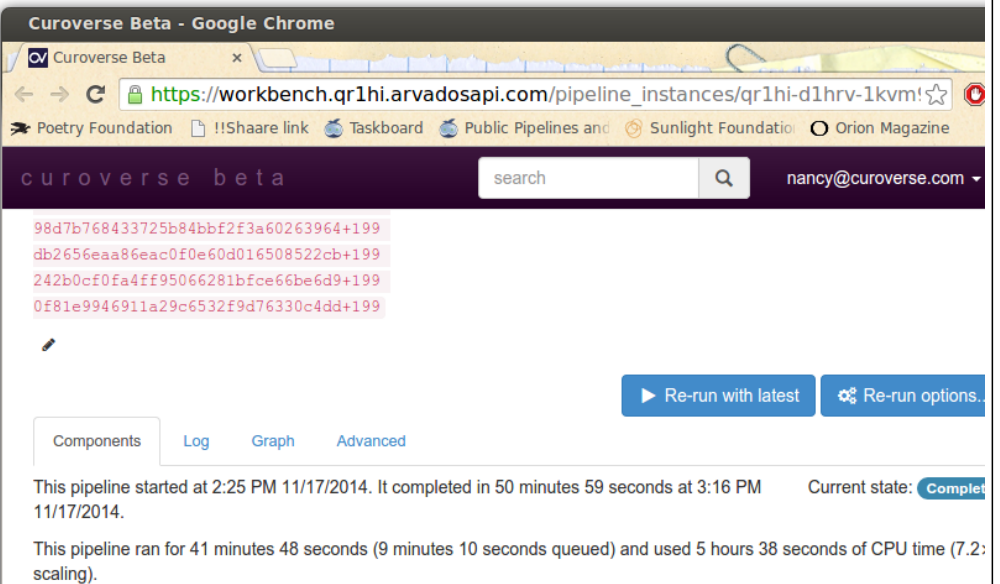

Description

I could not find my pipeline, and wasn't sure if it was in Home project or some other project.

I have a *ton* of 1-2 minute pipeline instances run on small "example" datasets as I was developing the pipeline template, and only 1 or 2 hour-long pipeline instances.

This problem may be especially exacerbated by my use of `arv-run /bin/bash`.

<input type="checkbox"/>			<code>arv-run /bin/bash</code>	Pipeline instance	<code>command</code>
<input type="checkbox"/>			<code>(none)</code>	<code>failed</code>	
<input type="checkbox"/>			<code>arv-run /bin/bash</code>	Pipeline instance	<code>command</code>
<input type="checkbox"/>			<code>(none)</code>	<code>failed</code>	
<input type="checkbox"/>			<code>arv-run /bin/bash</code>	Pipeline instance	<code>command</code>
<input type="checkbox"/>			<code>(none)</code>	<code>complete</code>	
<input type="checkbox"/>			<code>arv-run /bin/bash</code>	Pipeline instance	<code>command</code>
<input type="checkbox"/>			<code>(none)</code>	<code>complete</code>	
<input type="checkbox"/>			<code>arv-run /bin/bash</code>	Pipeline instance	<code>command</code>
<input type="checkbox"/>			<code>(none)</code>	<code>complete</code>	
<input type="checkbox"/>			<code>arv-run /bin/bash</code>	Pipeline instance	<code>command</code>
<input type="checkbox"/>			<code>(none)</code>	<code>failed</code>	
<input type="checkbox"/>			<code>arv-run /bin/bash</code>	Pipeline instance	<code>command</code>
<input type="checkbox"/>			<code>(none)</code>	<code>failed</code>	
<input type="checkbox"/>			<code>arv-run /bin/bash</code>	Pipeline instance	<code>command</code>

History

#1 - 04/02/2015 06:35 PM - Nancy Ouyang

^--the above picture is to show that it's very hard to tell which of the arv-run /bin/bashes on the left correspond to the windows on the right.

#2 - 04/02/2015 07:01 PM - Ward Vandewege

- Target version set to Bug Triage

#3 - 04/05/2015 09:53 PM - Brett Smith

- Subject changed from Display "time pipeline ran for" or "CPU hours" on pages listing pipeline instances to [Workbench] Display duration on pipeline instance listings

- Category set to Workbench

- Target version changed from Bug Triage to Arvados Future Sprints
