

Arvados - Bug #5743

[Workbench] Replace type-specific #index pages with generic code

04/15/2015 08:00 PM - Radhika Chippada

Status:	New	Start date:	
Priority:	Normal	Due date:	
Assigned To:		% Done:	0%
Category:	Workbench	Estimated time:	0.00 hour
Target version:	Arvados Future Sprints		
Description			
ProjectsController#show has a set of routes, controllers, and views that are capable of listing/filtering/sorting/inf-scrolling any type of object, delegating only the "show detail of one item" part to the appropriate partial.			
This generic "list things" code should be			
<ul style="list-style-type: none">• Updated, if necessary, to support preloading filters: e.g., a bookmark or link to /collections?filters=[...]• Updated, if necessary, to support showing lists of objects irrespective of owner project (i.e., either use the object_type.index API instead of groups.contents, or use groups.contents without supplying a project uuid, like Search does)• Moved from "projects" to "application" if/where appropriate• Used for all cases in workbench where a tab consists of a list of arvados objects, including<ul style="list-style-type: none">◦ projects#show tabs◦ any_arvados_type#index "recent" tabs◦ "collections with this portable_data_hash" on collections#show (please see discussion at #5622 about how routes/controllers should work here)			
There are various other "show a list of things" lying around that (mostly) predate the generic stuff in projects#show and implement some subset or alternate version of the generics. These should be removed. Examples:			
<ul style="list-style-type: none">• collections#index• pipeline_instances#index• "paging" partial
