

Arvados - Bug #5820

[Workbench] Missing link target in iframe error message

04/24/2015 06:46 PM - Tom Clegg

Status:	New	Start date:	
Priority:	Normal	Due date:	
Assigned To:		% Done:	0%
Category:	Workbench	Estimated time:	0.00 hour
Target version:	Arvados Future Sprints		
Description			
If a collection disappears while open in workbench, the tab reloads and the error message suggests browsing all collections. However, the "browse collections" link doesn't have a target attribute, so the resulting page (top nav and all) loads inside the iframe.
