

Arvados - Bug #6635

[Documentation] document installation of node manager

07/15/2015 05:27 PM - Ward Vandewege

Status:	New	Start date:	
Priority:	Normal	Due date:	
Assigned To:		% Done:	0%
Category:	Documentation	Estimated time:	0.00 hour
Target version:	Arvados Future Sprints		
Description			
For example, it requires a system token created with			
<pre>arv api_client_authorization create_system_auth \ --scopes "[\"GET /arvados/v1/jobs/queue\", \ \"GET /arvados/v1/nodes\", \ \"PUT /arvados/v1/nodes\", \ \"PUT /arvados/v1/nodes/\", \ \"POST /arvados/v1/nodes\", \ \"POST /arvados/v1/nodes/\"]"</pre>			

History

#1 - 07/15/2015 05:27 PM - Ward Vandewege

- Description updated

- Category set to Node Manager

#2 - 07/15/2015 09:50 PM - Brett Smith

Document it for who? Ourselves, or the public?

The latter is lower-priority, since people installing dynamic clusters in the cloud seems less and less likely as time goes on. I hope the day comes when it happens, but it's not imminent.

#3 - 08/11/2015 02:31 PM - Brett Smith

- Category changed from Node Manager to Documentation

- Target version changed from Bug Triage to Arvados Future Sprints

#4 - 08/31/2015 08:11 PM - Ward Vandewege

I had to google to find this today, which is less than optimal. So I added it to the [Hacking Node Manager](#) guide.
