

Arvados - Bug #6937

Only admin accounts can share their own repositories with arbitrary people

08/07/2015 10:25 PM - Nancy Ouyang

Status: Duplicate	Start date: 08/07/2015
Priority: Normal	Due date:
Assigned To:	% Done: 0%
Category:	Estimated time: 0.00 hour
Target version:	
Description Sally can't share her sguthrie repository (with the Tiling project code) with an arbitrary user, because she is not an admin user. (workaround is for an admin to create a group that includes Sally and the arbitrary user, and then Sally can share with that group). https://workbench.su92l.arvadosapi.com/manage_account & see attached picture.
