

Arvados - Feature #7411

[Workbench] Pipeline template listings should include links to the scripts

09/30/2015 07:23 PM - Bryan Cosca

Status:	New	Start date:	09/30/2015
Priority:	Normal	Due date:	
Assigned To:		% Done:	0%
Category:	Workbench	Estimated time:	0.00 hour
Target version:	Arvados Future Sprints		

Description

For example: https://cloud.curoverse.com/pipeline_templates/qr1hi-p5p6p-s2p9j0imop7r2kb

In script, you see bwa.py. It would be great if you could click on bwa.py here and see the script on your browser (The version it says on your script_version). The same way that works when looking in the pipeline instance would be nice. Just like in https://cloud.curoverse.com/pipeline_instances/qr1hi-d1hrv-5i2htgl86jgt788 when you click Run-BWA nad can click the script there.

History

#1 - 10/01/2015 05:17 PM - Brett Smith

- Subject changed from Click on script in pipeline template brings you to the script to [Workbench] Pipeline template listings should include links to the scripts

- Category set to Workbench

#2 - 10/01/2015 05:18 PM - Brett Smith

- Target version set to Arvados Future Sprints
