

Arvados - Story #7471

[SDKs] Provide a CLI tool to add files to an existing collection

10/07/2015 06:46 PM - Brett Smith

Status:	New	Start date:	10/07/2015
Priority:	Normal	Due date:	
Assigned To:		% Done:	0%
Category:	SDKs	Estimated time:	0.00 hour
Target version:	Arvados Future Sprints		
Description			
Functional requirements: with a single shell command, the user can add one or more files to an existing collection.			
This could be an extension to <code>arv keep put</code> , like a switch <code>--add-to [collection UUID]</code> , or a new subcommand.			
TBD: If the user runs <code>arv keep put --project-uuid [project] --name [existing collection name]</code> , should that add to the existing collection, or continue with the current "ensure unique name" behavior?
