

Arvados - Feature #8221

[Workbench] Add an "invert selection" button to checklists alongside "un/select all"

01/18/2016 06:02 PM - Martin Pollard

Status:	New	Start date:	01/18/2016
Priority:	Low	Due date:	
Assigned To:		% Done:	0%
Category:	Workbench	Estimated time:	0.00 hour
Target version:	Arvados Future Sprints		
Description			
It would be useful when working with long checklists in workbench to have the ability to invert selection.			
Collection consisting of A, B, C, D, E			
1. User selects B.			
2. User clicks invert selection			
Result: A, C, D, E is now selected rather than B.			

History

#1 - 01/20/2016 06:23 PM - Brett Smith

- Subject changed from Add an invert selection button to checklists in addition to the current select all/unselect all functionality to [Workbench] Add an "invert selection" button to checklists alongside "un/select all"

#2 - 01/20/2016 06:25 PM - Brett Smith

- Target version set to Arvados Future Sprints
