

## Arvados - Story #8774

### [Crunch] Limit maximum wait time between retries

03/22/2016 06:45 PM - Brett Smith

<b>Status:</b>	New	<b>Start date:</b>	03/22/2016
<b>Priority:</b>	Normal	<b>Due date:</b>	
<b>Assigned To:</b>		<b>% Done:</b>	0%
<b>Category:</b>	SDKs	<b>Estimated time:</b>	0.00 hour
<b>Target version:</b>	Arvados Future Sprints		
<b>Description</b>			
Should be ~60 seconds, instead of increasing exponentially forever.			
This requires changing crunch-job's code too, because it has a function that calculates a desired value for num_retries based on the expectation that backoff is always exponential.			

#### History

---

**#1 - 04/05/2016 04:57 PM - Brett Smith**

- Target version set to Arvados Future Sprints

**#2 - 05/05/2016 02:52 PM - Brett Smith**

- Subject changed from [PySDK] Limit maximum wait time between retries to [Crunch] Limit maximum wait time between retries

This was apparently done in the Python SDK in [89e091b3ee1fe85a68b0a9a0a619ca7baf606d2d](#). Now just crunch-job needs to be updated.
